

Capturing your perfect
IMAGES
Making the best impression...

PJB
PHOTOGRAPHY LTD

Commercial Photography

Stand out from your competitors with striking, professional images and give your customers the best impression of your business.

What do your images say about your business?

Whether on social media, your website, or in print, it's vital your images say the right things. After all, they say a picture is worth a thousand words. Your customers will judge you on the quality of your photographs, a badly taken one can often be worse than having none at all.

We take shots in virtually any location or situation. We'll produce perfect images with the perfect finish.

Top quality images – for print or on-line

We will discuss your needs in detail at a **free pre-shoot consultation**. You will then receive a brief, outlining our plans for your project.

Your images will be in full high resolution format for printing, as well as optimised for use on your website and social media.

Post production and editing usually takes a few days, or you can use our same day service.

Your commercial licence

You'll receive a full commercial licence for your images, allowing you to use them however you wish.

For images that promote your business at its best and inspire clients to pick up the phone – Call us on 07900 892586 today.

“You put everyone at their ease, including those who really didn't want to be photographed. Indeed, the most camera shy person in the company ended up with the best set of pictures.”

Chris Bailey, Bailey's Travel
