Commercial photography

At PJB Photography Limited we focus on producing the absolute best in quality of images, standards of service and value for money

What you are paying for

- + Our time onsite to take the images
- + The final images that you receive
- + **Full editing and processing** of your images. We ensure that the final image is the best it can be. It will be cropped, colour balanced, correctly sharpened and have any basic obvious retouching done.
- + **Fast supply of your images** – we always discuss with you your time requirements and make sure that we work to a mutually agreed timescale.
- + **A licence to use your images.** We don't place any time restrictions on how long you can use your images or how often, but there may be restrictions on how and where you can use them. This will be fully discussed and included in any quotes

Inclusive Pricing

We always quote an **inclusive price** that includes the charge for us to take, process and supply images for specific usage. Final images are edited to your requirements and with appropriate commercial rights granted.

What you'll receive

We supply high resolution JPEG files ready for production use at a resolution of 300 dpi. You can also request as other file formats if they are needed, we do not however release RAW files.

How you'll receive them

By using web transfer, we're able to have **selected web ready images with you within minutes** of our return to the studio if required. The remainder can be sent later via the same method or provided on a USB Sticks.
